

**UNIFIED PROCESS MENTORS**

## **Course: Requirements Management with DOORS**

**Length: 2 Days**

### **Course Description:**

Unified Process Mentors' Requirements Management with DOORS course provides a solid grounding in the use of the market-leading RM tool. The course familiarizes participants with DOORS' architecture and user interface, and how to use them on projects to manage requirements effectively.

Topics covered include editing a requirements document in a DOORS module; creating and using attributes to define requirements; setting up and using columns, filters, sorts and views to display data effectively; the DOORS traceability model; setting up and using links safely; handling change with DOORS; sharing DOORS data with other tools and with people on other sites; DOORS system administration.

Each part of the course consists of an explanation of the key concepts, demonstration of the techniques involved, and a practical exercise using the tool.

### **Objectives:**

- > Learn how to manage requirements using DOORS
- > Become familiar with DOORS' capabilities and user interface
- > Learn how to carry out basic operations using DOORS
- > Understand how DOORS can work together with other project tools

### **Audience:**

This course is intended for anyone who needs to use DOORS to manage requirements on their project or in their organisation.

### **Prerequisites:**

There are no prerequisites for this course.

### **Skills Learned:**

- > Skills to use DOORS to manage requirements on a project.

### **Our Instructors:**

Our instructors all have many years of experience in using, consulting with and training on DOORS. Our partners are founding members of the IBM's World Wide Methods advisory board.

Prices for the course and available dates can be provided upon request. To find out more, visit us at [www.UPMentors.com/education](http://www.UPMentors.com/education) or contact:
