

Course: Essentials of OpenUP

Length: 2 Days

Course Description:

This course provides an in depth overview of the OpenUP methodology. OpenUP is the agile, opensourced version of the Unified Process which is a proven market leading methodology that leads to greater delivery certainty and predictability by focusing on reducing project risk.

Objectives:

- > Explain why a focus on risk mitigation and architecture reduces project delivery risk
- > Learn through workshops how to plan and execute an OpenUP project
- > Learn the essential practices, activities and work products of OpenUP
- > Learn how to navigate and access templates on the OpenUP website

Audience:

The course is designed for any project team member.

Skills Learned:

- > The Four Phases of an OpenUP project and their milestones
- > Reducing risk on OpenUP projects
- > Key Principles of OpenUP
- > The Practices of OpenUP
- > OpenUP Roles and Disciplines

Our Instructors:

Our instructors are all RUP certified and have years of practical hands-on experience. Our partners are founding members of the IBM's World Wide Methods advisory board.

Unified Process Mentors is internationally recognized as experts in applying agile techniques on RUP and OpenUP projects.
