

Length: 2 Days

Course Description:

This course covers the diagramming skills required for Business Analysts. All diagrams described in the Business Analysis Body of Knowledge® (BABOK® V2.0) are reviewed. Taking this course is an excellent way to prepare for the Certified Business Analyst Professional (CBAP) designation.

Objectives:

- > Provide an understanding of visual modeling practices and the various alternative notations such as the UML and BPMN
- > Learn through hands-on workshops how to diagram processes and systems from varying perspectives
- > Prepare attendees to write the IIBA® CBAP® exam

Audience: This course is designed for Business and System Analysts and business stakeholders who are interested in describing their current and future business processes.

Prerequisites: There are no prerequisites for this course

Skills Learned:

- > Introduction to Visual Modeling
- > Data Flow Diagram
- > Data Modeling
- > Decision Analysis
